EDUCATION

University of St. La Salle

Bachelor of Science in Information Technology

April 2026

Bacolod City, Negros Occidental

- **GPA: 2.2/5.0**

WORK EXPERIENCE

Freelance Network Technician

2021 – Present

- Installed fiber optic internet connections across residential areas, running and terminating cables from ISP drop points to individual homes.
- Configured and deployed point-to-point wireless links using Ubiquiti Gen2 and Gen3 antennas to extend network connectivity between locations.

University of St. La Salle – Guidance Office

January 2026 – May 2026

University Intern

- Encoded and managed enrollment records for incoming students, including intake interview data and university profile information.
- Monitored and maintained counselors' workstations, performing PC debugging and troubleshooting to ensure uninterrupted daily operations.

Freelance Full-stack Developer

March 2026

- Developed client websites, delivering an icon library platform with customizable icons and an architectural thesis portfolio with interactive floor plans and construction timelines.
- Collaborated directly with clients to gather requirements, iterate on feedback, and deliver projects on deadline.

NOTABLE PROJECTS

BINHI – PHP, JS

- Develop a web and mobile application that monitors farmers' seed planting activities, tracking growth progress from planting through yield.

Reiya Account Manager – React, Typescript

- Developed a Windows desktop application for managing multiple Roblox accounts with secure credential storage, real-time session monitoring, and an analytics dashboard.

Viri Authenticator – React Native

- Developed a TOTP-based authenticator platform that generates time-sensitive one-time passwords for two-factor authentication, with biometric lock and QR code account setup.

Seisen Hub – Lua (Roblox Luau)

- Develop a multi-game script hub for Roblox with a custom UI engine (Seisen Library), featuring toggles, dropdowns, sliders, notifications, changelogs, and config persistence.
